Dear Mr Mashiri,

**RE: MACADAMIA GROWERS REGISTRATION DOCUMENTS
REQUIRED**

Further to our conversation a few weeks back concerning the registration as a grower of Macadamias for export, one of the requirements to become registered was a letter of contract with a merchant, of which we do not have as our crop is very small this year. We would have a contract in place for next years' crop though. The other requirement then was our title deeds.

When seeking clarification, I mentioned that we were already registered as a coffee exporter, HLST117 is our number, and have been for many years and that you have all our documentation already on file and therefore felt it was unnecessary to send our title deeds and all documentation again.

I therefore request that based upon the above and our conversation, that our registration proceed without any issues.

Yours sincerely

LOUISE BEZUIDENHOUT
